About me

Hello! I'm 28yo guy from Gdansk (Poland).
I was born on 24th March 1989.

If I had to describe myself in one word it would be...
maverick.

I'm kind of different in my way of seeing the world.
I believe in weird things like reincarnation.

I'm interested in:

- music <3
- aggressive inline-skating
- street dance
- self-development
- writing

My skills

I know few things about web and I really feel like
developing myself and extending my knowledge all
the time.

I work usually in those technologies:

**HTML5, CSS3, Bootstrap, Less, RWD, JS, jQuery,
JSON, CMS, WordPress, ACF Pro, Adobe Ps & Ai, GIT,
PHP, OOP, MVC, XML, MySQL, SEO**

And those are languages I'm speaking:

- **Polish** (native)
- **German** (advanced)
- **English** (intermediate)

Education? Ok.

It's a shame! The only school that I graduated from
was high school number X in Gdansk and that was in
2009.

Except that I was studying IT for two years
at Technical University of Berlin (2011-2013).
I stopped because... I was wild, young and free.
Everyone makes mistakes!

My experience

I've been working as a **Web-developer** for
about 8 years.

As we, Web-guys prefer - I was a freelancer most of the
time. Below I listed my regular contractors and some of my
